Strong Movement Under Way to Prevent Proselyting.

KILLED BY WOLVES.

Alaskan Miners Eaten at Own Doors for Lack of Deer.

Seattle, Wash., Jan. 11.—Several residents of the west coast of Prince of Wales island, southeastern Alaska, have been killed and eaten by wolves during the last year, according to Charles A. Sulzer, a brother of Congressman Sulzer of New York, who has just returned from the North.

Mr. Sulzer says that the wolves, having killed off all the deer, have become desperate with hunger and now come up to the doors of the miners' cabins.

LITTLE DAUGHTER HAD SCALP HUMOR

Itched So that She Scratched Until Blood Came, Hair Fell Out. Scalp had Unpleasant Odor. Used Cuticura Soap and Ointment Four Weeks. Scalp Perfectly Clear.

Hair Began to Grow Again and Now Has Beautiful, Long Hair.

"When my little daughter was about five years old, she was taken with the measles. A few weeks after the measles were gone, she began to have a severe scalp humor. It itched so that she would scratch the whole day, until the blood came. We had a doctor and tried a good many other remedies, but nothing helped. Her hair all fell out and the scalp itself had an unpleasant odor.

"After we had tried all the other remedies, my wife told me to try the Cuticura Soap and Ointment. We used the Cuticura Soap and Ointment according to directions and in about three or four weeks her scalp was perfectly clear of the terrible humor. Her hair began to grow again and now she has beautiful, long hair. Since that time I have recommended the Cuticura Remedies to other people and they also have been cured. Chas. Salzbrenner, Ames, Iowa, Nov. 8, 1909."

ANOTHER SHOT AT LORIMER

His Methods Are Denounced by Crawford

LORIMER KNEW OF BRIBE

Carefully Laid Plan Brought About the Election, He Says—Constant Conferences with Browne and Shurtleff.

Washington, Jan. 11.—In an exhaustive and carefully prepared speech, Senator Coe Crawford of South Dakota yesterday denounced the methods employed by agents of Senator William Lorimer in the legislature of Illinois and declared it his conviction that Mr. Lorimer was not entitled to retain his seat in the upper branch of Congress.

"I regret to say it," declared Mr. Crawford with emphasis, "but I am personally convinced that Mr. Lorimer knew enough about what was going on at Springfield to put a reasonably prudent man upon inquiry; that Shurtleff and Browne were his political agents, and that he ratified their acts and accepted the fruits of their corrupt practices, of which he must at least have had some knowledge; and that he was not legally and duly elected to a seat in the Senate of the United States by the legislature of Illinois."

The evidence, in his opinion, showed conclusively that the election of Mr. Lorimer was the outcome of a carefully laid plan, beginning with the election of Edward Shurtleff, whom he described as a "bitter enemy of Senator Hopkins and a political henchman of Mr. Lorimer," to be speaker of the legislature, and Lee O'Neill Browne to be leader of the minority.

"A game was being played," said Mr. Crawford, "in which at the very beginning all party principle was abandoned, and the control of the House was seized by unscrupulous and unprincipled men, who carried out a scheme to promote."

"I cannot overlook the fact that for days and nights immediately preceding May 26, 1909, when these corrupt and tainted votes were cast for him, Mr. Lorimer was in almost constant conference with Lee O'Neill Browne and Speaker Shurtleff, and they reported progress to him."

HE MUST BE REPRIMANDED.

Commander Sims Will Be Rebuked, the President Decides.

Washington, Jan. 11.—President Taft yesterday declared that Commander W. S. Sims, naval attaché at London, must be reprimanded.

At a banquet given in London by the mayor of that city, Commander Sims declared that if Great Britain ever seriously threatened she could depend on "every man, every dollar, every drop of blood" in this country.

"His offense has been so conspicuous," said the president, in his letter to the secretary of the navy, Meyer, directing the reprimand, "that the action of the department should be equally so."

The president says that whenever an officer of the navy "is called upon in a foreign country to speak in public, it is brought to the attention of the people of other foreign countries, and it is his obvious duty to avoid insinuous comparisons and to limit his speech and his expressions of friendship for the country whose guest he is to language that will not indicate a lack of friendship toward other countries."

"The navy is used much as an instrument of peace. One of the chief functions that its officers perform when they visit foreign ports is the representative one of conveying to all nations the good will of the United States. They are under special obligations to see to it that what they do or say shall not embarrass their government in its foreign relations."

Commander Sims cannot escape censure, the president holds, "on the ground that what he said was a mere expression of his personal opinion. Under the circumstances, he must speak as an official representative and he should have known that the words he used would at once call for severe comment in other countries than Great Britain and might involve this government in explanations and disclaimer."

BEGINNING ON RECIPROCITY.

American and Canadian Commissioners Meet.

Washington, Jan. 11.—The American and Canadian reciprocity commissioners held their second session Monday at the state department, beginning at three o'clock in the afternoon. J. B. Osborne, chief of the bureau of trade relations, who originally was designated as one of the commissioners, will be unable to spare the necessary time for the work of the conference, so that the American negotiations will be in the hands of Chandler Anderson, counselor of the state department, and Charles M. Pepper, special tariff expert. The commissioners refuse to give any information, even in a negative way, as to their proceedings. It is known, however, that the first session has cleared the ground for the consideration of the details of the reciprocity scheme and that there is every expectation that the work will be concluded this week.

NOW FAVOR ICE CREAM SODA.

British Populace Yields to Invasion of American Drink.

Washington, Jan. 11.—Ice cream soda has invaded England and is popular there, according to a report from George B. Stephenson, vice consul at Liverpool. Up to a year ago, little was known of this drink in England. It boasted of only one soda fountain, and that was in a department store.

This season, however, has witnessed the establishment of a number of soda fountains, and they have met with gratifying results. Lemon is the popular flavor. It is said that 75 per cent. of the customers call for this flavor.

So far all soda fountains imported into England are of American manufacture. The chargers, likewise, come from the United States. The syrups and extracts, however, are of home manufacture. The old habit of taking afternoon tea is rapidly being supplanted by iced drinks of all kinds.

STOMACH DISTRESS IS ENDED FOREVER

Indigestion, Stomach Gas, Heartburn or Dyspepsia Will Be Relieved In Five Minutes With a Little Diapiesin.

Take your sour, out-of-order stomach or maybe you call it indigestion, dyspepsia, gastritis or catarrh of stomach; it doesn't matter—take your stomach trouble right with you to your pharmacist and ask him to open a 50-cent case of Pape's Diapiesin and let you eat one 22 grain triangle and see if within five minutes there is left any trace of your former misery.

The correct name for your trouble is food fermentation—food souring; the digestive organs become weak, there is lack of gastric juice; your food is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in bowels, tenderness in the pit of stomach, bad taste in mouth, constipation, pain in limbs, sleeplessness, belching of gas, biliousness, sick headache, nervousness, dizziness or many other similar symptoms.

If your appetite is fickle and nothing tempts you, or you belch gas, or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause—fermentation of undigested food.

Prove to yourself in five minutes that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It's merely a matter of how soon you take a little Diapiesin.

REBELS VICTORIOUS.

Thus Far Have Made Rapid Progress in Honduras.

New Orleans, Jan. 11.—A special from Port Barrios, Guatemala, yesterday morning, stated that the revolutionary forces operating on the north coast of Honduras, after capturing all the Bay Islands, attacked the mainland and seized Cape Triunfo, Bishops point and Mica lagoon, in addition to the town of Tela, which was reported captured in wireless dispatches from Puerto Cortez Monday night.

The special states that the gunboat Hornet has conveyed a large fleet of schooners loaded with troops to the mainland and that Tela fell Sunday without a struggle.

It is asserted that Manuel Bonilla, who leads the revolution, has complete control of the entire Bay island group, including the islands of Ruanan, Bona Cia, Barabara and Utilia, and that all of the Davilla officials on the islands have gone over to the revolutionary cause.

SUSPECT HELD IN FINE CASE.

Providence Police Not Satisfied With Negro's Story.

Providence, R. I., Jan. 11.—Although two long and persistent examinations by police officials failed to shake the repeated assertions of innocence of Clifford Thompson, the negro, who was arrested Monday on suspicion of connection with the death of Mrs. Minka Fine, found brutally murdered in a room in the rear of her little store on Ambrose street Saturday night, the officers are not yet satisfied with his story. Thompson lived almost directly across the street from Mrs. Fine's store and in his room the police found a vest with stains they suspect may be blood stains. Soon after his arrest he was identified by Anna Balskovitch as the man she saw in the store an hour before the murder was discovered. Other witnesses declared they saw him hurrying away from that vicinity about six o'clock and half an hour later he is said to have changed his suit in a nearby poolroom.

PUTS UP \$700,000 TO SETTLE.

Sugar Trust Deposits Fortune to Escape Government Suits.

Washington, Jan. 11.—The American Sugar Refining company has deposited \$700,000 in cash in the United States treasury to compromise its civil liabilities in the sugar drawback frauds at New York, and attorneys of the department will formally accept the money for the government.

Henry A. Wise, district attorney at New York, and attorneys of the department of justice have advised the secretary of the treasury to take it. If accepted, it settles the government's civil claims only and does not prejudice the right to criminal proceedings.

The sugar company's original offer to settle the frauds was \$250,000, but District Attorney Wise declined that. The sugar company later offered \$500,000, and its counsel emphatically informed Secretary McVeagh that such an offer was "the last cent." It was raised to \$700,000 later, however, when the treasury refused the offer of half a million.

TO BIND HONDURAS.

Financial Treaty With The United States.

Washington, Jan. 11.—The loan which Honduras is endeavoring to negotiate in this country for the liquidation of her foreign debt and the prosecution of improvements has progressed to the point of serious consideration of the provisions of a treaty between the United States and Honduras, which will bind the latter country in the discharge of its future obligations. The phases of such a convention were discussed by Juan E. Paroles, minister of finance of Honduras, with officials of the state department. It is not known what will be the extent and scope of the treaty, but it will enable the United States to assist materially the little republic in settling its tangled financial affairs and avoid any possibility of European intervention, a situation the American government is anxious to avert.

\$10,000 FOR FALSE ARREST.

New Yorker Secures Verdict In State Supreme Court.

New York, Jan. 11.—Because he was charged with larceny by the company for which he worked, taken to police headquarters, "mugged," measured and branded as a crook, but later released by a magistrate, Charles McGuire brought suit for \$10,000 for false arrest, and has obtained that verdict in the supreme court.

VOTE SELLERS RUSH TO COURT.

Judge Blair of Adams Co., O., Finds a Large Number Waiting for Sentence.

West Union, O., Jan. 10.—Twenty-five penitent and self-confessed vote sellers, who were waiting for him at Peebles when he returned Monday to the county seat from his home at Portsmouth, were tried by Judge Blair before daybreak Saturday night, the officers are not yet satisfied with his story. Thompson lived almost directly across the street from Mrs. Fine's store and in his room the police found a vest with stains they suspect may be blood stains. Soon after his arrest he was identified by Anna Balskovitch as the man she saw in the store an hour before the murder was discovered. Other witnesses declared they saw him hurrying away from that vicinity about six o'clock and half an hour later he is said to have changed his suit in a nearby poolroom.

GRIPPE CLAIMS VICTIMS.

Fifty Died of Disease in New York in Last Week.

New York, Jan. 11.—According to Dr. William H. Guilfoxy, registrar of records in the department of health, New York is experiencing the worst epidemic of grippe since the disease first appeared in 1880. This fact the physician attributes to the cool and damp weather which has prevailed recently. The figures he has compiled for the week ended last Saturday show a total number of deaths from grippe of 50, as compared with 10 during the corresponding week of 1910.

Dr. Guilfoxy explains that the disease comes from an air germ, which is taken into the lungs by minute blood vessels. If one's constitution is strong enough, said the physician, the ravages of the illusive bacilli may be withstood until they die. He maintains, however, that no tonic serum has yet been found with which to combat the disease.

The total number of deaths during the week was 1,697, as against 1,753 for the same week of the preceding year. Pneumonia in its various forms was responsible for more of them than any other one disease.

It is now his intention to come here and lay before the sheriff's jury to be called by his attorney, Charles Morris, all the letters he got from the defendant during their courtship and tell from beginning to end the details of the romance.

The latter in his will left Mrs. Webb \$4,029,125.

The son of Dr. W. Seward Webb, vice president of the New York Central lines, it was announced, would "punch the time clock" at 8 a. m. and resume his clerical work. Mr. Webb left his position December 17. He took his wife and baby with him, declaring that he "had shaken off the dust of Chicago forever."
